**Learning Safety the Natural Way,
A Children's School Program**

Geared toward students from kindergarten through fourth grade, this 7-minute video and workbook effectively teaches school children about natural gas safety.

Natural Gas – Your Invisible Friend

In this program students act as peer reporters and launch an investigation about natural gas. The students find out how natural gas is used in a science lab, popcorn plant and pizza parlor. These real-life situations teach children about exploration, distribution, natural gas vehicles and what they should do if they smell natural gas. Included is a 14-minute video and workbook for children in grades three through six.

Careers in the Natural Gas Industry

Today, the natural gas industry offers a wide variety of career opportunities. Learn valuable tips for a successful job interview and develop skills to assist you in your job search.

Yes! I am interested in having a representative from New Jersey Natural Gas address my organization.

New Jersey Natural Gas

**SPEAKERS' BUREAU
PROGRAMS**

Invite NJNG to your next gathering for a learning experience that's fun and educational.

SPEAKERS' BUREAU PRESENTATIONS

Whether you're looking for a luncheon speaker, a classroom presentation, a guest lecturer or any opportunity for your group to learn about energy, New Jersey Natural Gas has Speakers' Bureau presentations for every age and interest.

To arrange a presentation, contact Customer and Community Relations at 732-938-1035.

Carbon Monoxide and Natural Gas Safety

Learn how to avoid the dangers of carbon monoxide (CO) with this 17-minute video focusing on the common causes of CO buildup in homes and the symptoms of CO poisoning. This program also covers safety measures taken by the natural gas industry and NJNG.

Conserving Energy in Your Home

Saving on your energy costs is easy with NJNG's conservation and high-efficiency rebate programs. Learn about new tools and resources in the industry to help you conserve even more. Our no- and low-cost tips can help reduce your energy bills while you stay more comfortable at home.

If you have a specific topic, we will do our best to meet your needs. Speakers from many departments are available to discuss their areas of expertise.

A New Spin on Energy Savings

This fun, interactive game promotes audience participation. Its main attraction is a prize wheel filled with information on rebate programs, energy assistance and no- and low-cost tips to help reduce energy bills. The game can be customized for all ages and features prizes for audience members.

Energy Assistance Programs

Learn about available programs to help pay energy costs for customers facing financial difficulties. This presentation teaches how to apply for energy assistance and is also available in Spanish.

Energy Lingo

Enjoy the fun of Bingo while learning about conservation, safety and other important natural gas topics. Features prizes for audience members and is fun for all ages!

NJR and the Environment

Join New Jersey Resources (NJR), the parent company of NJNG, in preserving our natural resources and the environment. Learn how NJR leads the way with its Conserve to Preserve® initiative, hear about environmental issues and receive tips on recycling and reducing waste.

Staying Comfortable in Extreme Temperatures

Learn how weather can affect your body and ways to protect yourself from extreme temperatures. This program will help you recognize the signs of heat stress and hypothermia and how to prevent them.
